Client Command® Named to Inc 5000 List of Fastest Growing Companies for Sixth Time

Cumming, GA (August 30, 2017) – Client Command®, the automotive marketing leader in turning active shoppers™ into real customers, is thrilled to announce the company has again been named to the Inc 5000 List of the Fastest Growing companies of 2017. This is the sixth time the company has been honored with a ranking on the list, leapfrogging ahead more than 2000 spaces from #4483 in 2016 to #2641 this year.

The Inc. 5000 outlines the fastest growing, privately held companies from across the country that demonstrate the highest revenue growth over a 3-year period. Previous winners have included companies the likes of FitBit, Zappos, and Pandora.

The award joins a growing number of accolades Client Command has amassed this year. The company has experienced tremendous success, with revenue growth of 132% over the last three years, a staff that has more than quadrupled in size in the past two years, and the need to increase their office space from 4,800 sq. ft. to 13,200 sq. ft. earlier this year.

“We are so honored to be included in this year’s Inc 5000 list of fastest growing companies,” said Charles Darwin, COO of Client Command. “But even more than the accolades, we’re excited to bring the automotive industry top of the line marketing solutions. We share this award with each of the customers who have brought us to this point.”

With a focus on 1:1 marketing to individual car shoppers actively looking for a new vehicle, Client Command offers an unprecedented opportunity for automotive marketers to make their marketing and advertising strategies more precise and efficient. Even better, results are guaranteed based on the sales targets they want to achieve. Whether it’s conquest sales in new areas or retaining more existing customers, Client Command has strategies to help OEMs, regional groups, and dealerships reach active shoppers™ quickly and efficiently without a lot of media waste.
